

**ADBA Computer Science**  
Volume: 1 – Issue No: 1 (July 2024)

# CONTENTS

- 1** **Cem Özkurt, Firdevs Sungu**  
Deep Learning in Agriculture: Detection and Analysis of Sugar Beets with YOLOv8 (**Research Article**)
- 8** **Emre Deniz**  
Evaluating the Effectiveness of Machine Learning Models in Predicting Student Academic Achievement (**Research Article**)
- 14** **Yusuf Alaca, Erdal Basaran, Yüksel Celi**  
Enhancing Anomaly Detection in Large-Scale Log Data Using Machine Learning: A Comparative Study of SVM and KNN Algorithms with HDFS Dataset (**Research Article**)
- 19** **Cem Özkurt**  
Environmental Sustainability through AI: A Case Study on CO2 Emission Prediction (**Research Article**)
- 26** **Khalid Hani Abushahla, Muhammed Ali Pala**  
Optimizing Diabetes Prediction: Addressing Data Imbalance with Machine Learning Algorithms (**Research Article**)
