

Computers and Electronics in Medicine
Volume: 1 – Issue No: 1 (July 2024)

CONTENTS

- 1** **Yeliz Karaca**
Juxtaposition across Mathematical Modeling, Stochastic Processes along with the Lenses of Philosophy of Science and AI integration in Medicine and Biology: An Overview (**Research Article**)
- 12** **Cem Özkurt**
Examination and Evaluation of Obesity Risk Factors with Explainable Artificial Intelligence (**Research Article**)
- 18** **Fatma Betül Derdiyok, Kasım Serbest**
ANN Algorithms for Parkinson's, ALS, Huntington, and Healthy Walking Detection (**Research Article**)
- 24** **Meryem Yalçinkaya, Ömer Faruk Akmeşe**
Bibliometric Analysis of Publications on Action Recognition, Convolutional Neural Network, Video Surveillance During 2011-2021 (**Research Article**)
- 34** **Mustafa Kutlu, Turker Berk Donmez, Chris Freeman**
Machine Learning Interpretability in Diabetes Risk Assessment: A SHAP Analysis (**Research Article**)
