

**Chaos and Fractals**  
**Volume: 3 – Issue No: 2 (July 2026)**

# CONTENTS

- 65** **Mohsen Soltanifar**  
Descriptions of Cantor Sets: A Set-Theoretic Survey and Open Problems (**Research Article**)
- 76** **Mohammed Mansour, Turker Berk Donmez**  
An Explainable Leakage-Audited Framework for Multi-Horizon Sepsis-3 Onset Forecasting from Complex ICU Dynamics (**Research Article**)
- 92** **Akshara Sreenivasan, Vinodkumar Vinodkumar Arumugam, Sriramakrishnan Pathmanaban, Saravanan Arumugam, Jehad Alzabut**  
Integrating Fuzzy Logic and Fractional-Order Operators in Convolutional Neural Networks for Handwritten Digits and Characters Recognition (**Research Article**)
- 108** **Mustafa Kutlu, Mehmet Kutlu**  
Diffusion, Not Chaotic Forcing, Controls Mixing in a Boundary-Coupled Cellular Automaton (**Research Article**)
- 117** **Sude Emine Baydar, Muhammed Ali Pala**  
Efficacy of Multi-Domain Acoustic Features in Speech Emotion Recognition: A Comparative Analysis of Machine Learning and Deep Learning Models (**Research Article**)
- 125** **Mutala Abdul Karim, Peter Awon-natemi Agbedem nab, Salamudeen Alhassan**  
From Deterministic Chaos to Machine Learning: A Comparative Review of Pseudo-Random Number Generators for Modern Computing and Cryptography (**Review Article**)
